

200 STRAND

LONDON WC2

12,000 sq ft comprehensively refurbished building prominently located opposite the Royal Courts of Justice.

200 STRAND

EXCEPTIONAL HEADQUARTERS OPPORTUNITY

200 Strand is being comprehensively refurbished to create a distinguished headquarters opportunity, well suited to the requirements of a modern business. The building will provide impressive arrival experiences for both clients and staff with the occupier being able to choose from a brand new reception area in addition to a direct entrance into the ground floor space.

The available accommodation provides 12,152 sq ft of open plan office space. Throughout, the building benefits from excellent levels of natural light, high-quality new end-of-trip facilities, a new passenger lift, and dedicated WC facilities on each floor.

SPECIFICATION

DESCRIPTION

The building has an exposed brick and Portland stone façade; constructed in a neo-classical style characterised by its symmetry, particularly apparent on the front façade. A new blackened steel contemporary glazed entrance with brass detailing inset to stone reveals creates a prominent address and connection to the street.

A new high quality, welcoming reception space is visible through the new enlarged entrance on Milford Lane. The design subtly takes Neo-Georgian cues and distils them into a contemporary yet classic space.

Internally a new structural steel framed core with comflor slab infill has been inserted into the existing building.

The information presented within this document is based on RIBA Stage 5 construction drawings and correct as of March 2026.

BUILDING MANAGEMENT / WELFARE FACILITIES

Separate welfare facilities for security and building management staff room is provided in the basement.

OVERVIEW

- Interior refurbishment:**
- High quality reception
 - CAT A Office floors including new WCs at levels LG, 1st, 2nd, 3rd, 4th, 5th
 - End of trip facilities at Lower Ground and dedicated bike storage
 - New steel framed core with new stairs, lift car and fire-fighting lobby
- Exterior works:**
- Contemporary glazed entrance inset to stone reveals
 - New and enlarged windows along the Milford Lane elevations on 2nd, 3rd, 4th and 5th floors
 - Façade repair
 - New warrantied roof membrane

BMS

The BMS integrates the HVAC, lighting, energy and security systems into one platform which can be remotely accessed from the display panel on the basement MCC to monitor and control the new on floor plant.

SERVICES

The building has mixed mode ventilation, enabling both energy-efficient natural airflow via openable windows and mechanical conditioned air via three sets of vertical ducts with front face grilles.

Additional ductwork can be installed form the vertical ducts, by the tenant, if cellular space is required.

Perimeter small power distribution simplifies workstation planning and reduces floor disruption.

Heating & Cooling provided from perimeter mounted FCUs and served around the perimeter at low level.

Lighting, PIR sensors & smoke detection services are provided on the ceiling.

ACCESS AND SECURITY

A suitable CCTV system will be provided to cover ground floor entrance, reception and main circulation in basement.

ENERGY PERFORMANCE CERTIFICATE

Predicted EPC B rating.

RECEPTION FINISHES

High quality reception with design character and high standard finishes and lighting.

- Bespoke GRG wall panels
- Bespoke stone bench and desk
- Custom two-tone terrazzo flooring
- Bespoke metal signage

Bespoke designed reception desk will be provided with security and access provision.

Intercom, desk heating, broadband and wireless amenities included.

Disabled access and intercom to be provided with reception desk.

CAT A CEILING FINISHES

Plastered ceilings with lighting and galvanized cable conduit.

LIFT PROVISION

One fire-fighting lift is provided in the building.

Lift Type: 1no. 8-Person passenger / fire-fighting / evacuation lift

Lift car interiors are designed to match with the reception area design.

DESIGN CRITERIA:

- Occupancy and Provision**
- Core design elements, WCs and lifts are designed to 12.5m2 per person. The office spaces have been designed to 10m2 per person.
- Floor Subdivision**
- The office floor plates from LGF to 5th are designed to allow each floor to be let to a different tenant. The office lettable area is designed to accommodate either an open plan or cellular layout.
- Structural Grid**
- The structure is on an irregular grid.
- Existing beams are at minimum 2.2m centres spanning from Strand façade to South façade.
- There are only two existing columns on the typical floor, bridging the pre and post-war segments of the building.
- Fire Strategy Occupancy Standards**
- | | |
|----------------------------|-------------------------------------|
| Office Areas: | 6 m² per person |
| Stairs: | 6 m² per person |
| Retail Unit: | 3 m² per person |
| Basement ancillary spaces: | 2 m² per person
30 m² per person |
- Office Floors**
- CAT A fit out including:
- Capped off services for future kitchenette area
 - New WC core on office floors L01, L02, L03, L04, L05, providing 1 x WC and 1x accessible WC per typical floor
 - New ceiling mounted LED lighting on PIR throughout the office floors, including linear and can spotlights aligning with the center of structural bays
 - Skim white paint finish to walls and ceilings
 - Statutory signage
 - New skirtings
 - Perimeter mounted FCUs
 - Office floor conditioned air provided by two sets of risers with grilles to face, maximizing floor to ceiling heights
 - New secondary glazing throughout existing windows
- Level 02 has an enhanced level of finish to act as a show floor. This includes:
- Natural fibre carpet to office plate
 - Bespoke minimal white casings to perimeter mounted FCUs
- End of Trip**
- All facilities have been provided in accordance with the London Plan, this includes:
- 23 bike spaces
 - 2 showers
 - 16 lockers
 - Vanity and locker area
 - 1 WC
